## Education

**Indian Institute of Information Technology (IIIT) Lucknow** Lucknow, India  
*Bachelor of Technology (B.Tech) in Information Technology; CGPA: 8.55* Aug 2024 – Jun 2028  
• **Relevant Coursework:** Artificial Intelligence (AI), Data Structures & Algorithms (DSA), Object-Oriented Programming (OOPs), Database Management (DBMS), Operating Systems (OS), Computer Networks (CN), Software Engineering, Compiler Design (CD).

## Skills & Competencies

**Languages:** C, C++, Java, Python, JavaScript (ES6+), SQL, Bash  
**Technologies & Tools:** React.js, Next.js, Node.js, Express.js, FastAPI, HTML5/CSS3, Tailwind CSS, XML, Flex, REST APIs, Docker, Git/GitHub, Linux/Unix, Postman  
**AI & LLM:** LangChain, Crew AI, OpenAI API, Prompt Engineering, Multi-Agent AI Systems  
**Databases:** MongoDB, MySQL, PostgreSQL, Firebase  
**Core Concepts:** Software Development Life Cycle (SDLC), Distributed Systems, Scalable Backend Architecture  
**Soft Skills:** Teamwork, Leadership, Cross-Functional Collaboration, Problem Solving, Communication

## Projects

- Travelobe

React, Firebase, MongoDB, Node.js, LLMs

🔗 Live Demo 🐙 GitHub

  - Designed and developed an **AI-driven travel planning application** that generates personalized itineraries based on user interests, travel style, and trip duration, improving trip-plan relevance through prompt tuning and structured input validation.
  - Implemented **natural language understanding and itinerary generation** to enable context-aware and personalized recommendations.
  - Built a responsive frontend using **React and integrated Firebase for real-time data storage**. Focused on **prompt engineering and model integration** to improve relevance and coherence of generated itineraries.
- Escout

React, Node.js, MongoDB, Socket.IO, Brevo

🔗 Live Demo 🐙 GitHub

  - Built a full-stack esports platform bridging competitive players and professional scouts, featuring secure, role-based registration with **OTP verification via Brevo**.
  - Architected a live bidirectional communication engine using **Socket.IO** for real-time private messaging, group chats, and emoji reactions, and optimized message delivery flow for low-latency interaction.
  - Developed "Arena Hub", a dynamic media dashboard for player highlights with **real-time state updates**, view tracking, and threaded comments.
- LegalEase

Python, Crew AI, LangChain, OpenAI

🔗 Live Demo 🐙 GitHub

  - Created an AI-powered platform designed to parse and simplify complex banking and legal jargon to enhance financial literacy.
  - Engineered a multi-agent AI system using **CrewAI** for agent orchestration and task-specific reasoning, with **LangChain**-based retrieval to improve context accuracy and response consistency.
  - Streamlined document parsing pipelines to increase transparency in complex financial disclosures.

## Achievements

- Rated as **Specialist** (max rating: 1514) on Codeforces.
- Achieved **2-Star** rating on CodeChef.
- Secured **321st rank** globally out of 27,000+ participants in CodeChef **START157D**.
- Secured **2413th rank** globally out of 37,000+ participants in LeetCode **Biweekly Contest 178**.
- Ranked 7th** among 200+ participants in DSA Contest-1, IIIT Lucknow.
- Finalist in **Code Arena 2025**, a coding contest organized by IIIT Lucknow.
- Participated in **60+ contests** and solved **640+ problems** across [Codeforces](#), [LeetCode](#), and [CodeChef](#).

## Positions of Responsibility

**Google Developer Groups (GDG)** Lucknow, India  
*Member* Sep 2025 – Present  
• Assisted in organizing technical events and workshops to foster developer engagement and knowledge sharing.  
• Collaborated with fellow members to foster knowledge sharing through technical sessions, hackathons, and community-driven activities.

**E-Cell** IIIT Lucknow  
*Member* Sep 2025 – Present  
• Collaborated with Outreach and Content teams and coordinated sponsorships for the annual E-Summit.
